Career Objective: To have a challenging career and to acquire a position in your organization that affords me the opportunity to bring my skills, teamwork and to learn and to make an organization successful.

Educational Qualifications:
- Pursuing B. Tech at Muthayammal Engineering College in the stream of Artificial Intelligence and Data Science.
- Completed my +2 from Narayana Junior College with the percentage of 6.2 CGPA.
- Done my schooling from Modern English Medium High School with 7.5 CGPA.

Technical Summary:
- Proficient in Python
- C language

Mini Projects:
- **Title:** Network with adaptive architecture
- **Description:** Developed a network adaptive architecture to optimize machine learning model performance by dynamically adjusting network parameters based on real-time data inputs. This project involved implementing algorithms to enhance the adaptability of and efficiency of AI models in varying environments.

Internships:

- Python Intern gained hands-on experience in Python programming and enhancing skills in software development and data analysis.

Certification:
- Completed the Python Fundamentals course on Udemy gaining proficiency in core Python programming concepts and techniques.

Strengths:
- Team builder.
- Team Building Skills.
- Quick learner.

Curricular Activities:
- Delivered a presentation on "Advanced Applications of C Language" at SVCE Engineering College, Tirupati.
- Provided tutoring and support to classmates in programming languages and data analysis, enhancing peer learning and problem-solving skills.

Extra Activities:
- ➢ Engaged some Blood Donation Camps.
- ➢ Active member of Save a Rupee Organization.

Personal Information:
- ➢ **Father's Name:** R Murali
- ➢ **Mother's Name:** R Bhagyalakshmi
- ➢ **Nationality:** Indian
- ➢ **Languages Known:** English, Telugu, Hindi.
- ➢ **Hobbies:** Travelling, Cricket
